Hand studies 1

A film by Benoît Labourdette (1’25s, 2010).

15 July 2010, by Leny Müh.

*Hands, or rather the hand, is a subject that matters to movies shot with handheld cameras: the camera in one hand, that films the other hand.*

The hand can become a topic... This is why I try a first study on the subject, accompanied by a music remixed in my own way.
