

Embassy of France in Spain: Pocket Films Training for teaching French as a foreign language

28 March 2015, by [Benoît Labourdette](#).

Filmmaking techniques using cell phones for teaching French as a foreign language in Spain.

The linguistic and educational Cooperation Department of the Embassy of France in Spain, Northeast Zone (Cecilia Goloboff) set up in partnership with the Professorship Palma Centre (Andrei Philip) a short training "Pocket Films" for teachers of French as a foreign language in Palma (Majorca - Balearic Islands).

This 8h training led to a degree.

I did teachers work on video potential of mobile phones. I gave teaching logging roads audiovisual creativity with light techniques, which, if taken seriously, and that's well organized, contains many possibilities.

We worked especially around for ["Tell me ten words"](#) and ["Filming the words"](#) of the General Delegation for the French language and the languages of France.

Video exercises
