Making the teaser of the opera “The Cunning Little Vixen” (production Arcal, directed by Louise Moaty). March 2016.

We designed, with the stage director Louise Moaty, the live video stage device of this opera. Logically, the [Arcal](#), producer of the show, asked me the making of the teaser. Because of the constrained budget, I shoot with one camera, during the three general and the first two performances. The editing was done in collaboration with [Catherine Kollen](#).

I also made the [transmedia website](#) of this opera.
